

LX Series Air Conditioners with R-410A Refrigerant

TCJF Model with MicroChannel Technology

14.5 SEER

Comfort for all the times of your life

Comfort with a conscience

Now you can feel as good about the environment as you do about your home. This Coleman® model uses about three-fifths the electricity of older

systems, earning it the ENERGY STAR® logo awarded by the Department of Energy and the Environmental Protection Agency for saving energy. And it comes with R-410A refrigerant, which reduces impact on the atmosphere.

Reliability you can trust

Count on the engineers of Coleman® comfort equipment to ensure long-life reliability by using an advanced MicroChannel coil. This technology uses all-aluminum construction developed in the automotive industry. The aluminum MicroChannel coil creates a superior heat exchange surface for higher performance.

Small size, perfect fit

Advanced design makes it possible to fit maximum performance in minimum space. The result is an attractive, slimmer appearance and neater installation.

Raise comfort, reduce noise

Enjoy the peace and quiet that comes with a quieter upflow air flow pattern, a sound-isolated motor, a rigid top panel, cushioned compressor mounts that dampen vibrations, and added sound insulation.

Coleman® LX Series

Savings you can see

Advanced LX model air conditioners double efficiency over many older units. Factor in higher reliability and reduced service costs, and an LX model purchase pays for itself fast.

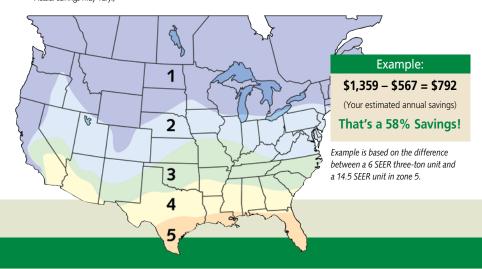

To use the map and chart:

First, determine the SEER of your current system. Then using the map, find your zone. Cross-reference your zone and SEER in the table to determine your approximate operating cost. Take the difference between your current cost and that of a new, more efficient system to learn your estimated annual savings.

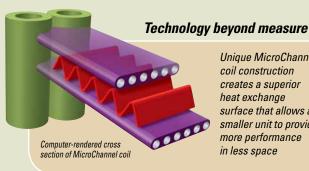

Seasonal Energy Efficiency Ratio (SEER) is a measure of air-cooling efficiency. The government's minimum rating for new air conditioning systems is 13 SEER.

Cooling Efficiencies	Approximate Annual Cooling Operating Costs							
SEER	Zone 1	Zone 2	Zone 3	Zone 4	Zone 5			
6	\$ 479	\$ 614	\$ 833	\$ 866	\$1,359			
8	\$ 359	\$ 455	\$ 625	\$ 649	\$1,020			
10	\$ 288	\$ 368	\$ 500	\$ 519	\$ 815			
12	\$ 239	\$ 307	\$ 417	\$ 432	\$ 680			
13	\$ 222	\$ 285	\$ 386	\$ 402	\$ 631			
14	\$ 207	\$ 265	\$ 360	\$ 375	\$ 589			
15	\$ 192	\$ 246	\$ 334	\$ 348	\$ 546			

(Based on 2005 DOE national average price for electricity [0.0945/kwh]. Assuming the use of 36,000 BTU nominal capacity. Cooling based on Bin data. Operating cost based on 2,100 sq. ft. and occupancy of 4 people. Actual savings may vary.)

Rugged, reliable product design

Unique MicroChannel coil construction creates a superior heat exchange surface that allows a smaller unit to provide more performance in less space

Compressor blanket and swept-wing fan blade ensure quieter operation

> Stylish cabinet looks good in your neighborhood

Slotted inlet coil guard with secondary polymer mesh provides the ultimate in coil protection

Compressor is protected from high pressure and temperature for durability

High-pressure relief valve and solid core filter-drier extend life of compressor

Warrantied for years of comfort

Every Coleman® system is backed with the best limited warranties available:

Financing plans that feel right

Ask your Coleman® HVAC dealer about special financing options. Applying is easy, and upon approval, you'll enjoy low monthly payments and financing offers.

How comfortable is your wallet?

By matching your Coleman® system with Coleman® variable-speed air handlers and furnaces, you will maximize energy efficiency and likely qualify for various rebates.

Ask your Coleman® dealer about rebates offered in your area. And ask about Coleman® fans, filters, IAQ equipment and advanced controls to complete your system. Talking to your dealer will keep you informed, save you money and time, and protect your family's health—all part of Coleman® Comfort.
